Define Problem Statements (Customer Problem Statement Template)

PocketSmart AI addresses the difficulty of planning lifestyle needs within a fixed budget. The project uses user budgets, preferences, context, and optional images to generate personalized recommendations for home interiors, party planning, and jewelry selection.

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A budget-conscious user	Plan home interiors within a fixed budget	There are many products, platforms, and price ranges to compare	Choosing suitable products across platforms can be time-consuming	Overwhelmed and uncertain about the best options
PS-2	A party planner	Organize an event within a fixed budget	Food, venue, decoration, and entertainment need separate planning	Costs and options vary across services and platforms	Stressed about overspending and financial guesswork
PS-3	A jewelry shopper	Find jewelry matching an occasion and outfit	Style, color, occasion, and budget all need to be considered	Suitable choices are spread across different products and platforms	Unsure about finding a suitable, budget-friendly match
